Contents

VOLUME 6, NUMBER 1, JANUARY 1992
Published 28 April 1992

EDITORIAL
D. A. LINDQUIST, M. ABUSOWA and M. J. R. HALL
The New World screwworm fly in Libya: a review of its introduction and eradication 1–8

FRÉDÉRIC J. R. LARDEUX
Biological control of Culicidae with the copepod *Mesocyclops aspericornis* and larvivorous fish (Poeciliidae) in a village of French Polynesia 9–15

J. A. ROZENDAAL
Relations between *Anopheles darlingi* breeding habitats, rainfall, river level and malaria transmission rates in the rain forest of Suriname 16–22

A. L. MILLEST
Identification of members of the *Simulium ochraceum* species complex in the three onchocerciasis foci in Mexico 23–28

CHRISTOPHER A. GREEN, LEONARD E. MUNSTERMANN, S. G. TAN, SAKOL PANYIM and VISUT BAIMAI
Population genetic evidence for species A, B, C and D of the *Anopheles dirus* complex in Thailand and enzyme electromorphs for their identification 29–36

M. HARRY, I. GALINDEZ and M. L. CARIOU
Isozyme variability and differentiation between *Rhodnius prolixus, R.robustus* and *R.pictipes*, vectors of Chagas disease in Venezuela 37–43

F. W. MOSHA, R. J. A. NJAU and J. ALFRED
Efficacy of Esbiothrin mosquito coils at community level in northern Tanzania 44–46

SANTOSH KUMAR, SHRI PRAKASH, M. P. KAUSHIK and K. M. RAO
Comparative activity of three repellents against the ticks *Rhipicephalus sanguineus* and *Argas persicus* 47–50

C. J. SCHOFIELD, M. J. LEHANE, P. MCEWEN, S. S. CATALA and D. E. GORLA
Dispersive flight by *Triatoma infestans* under natural climatic conditions in Argentina 51–56

XIAOHONG LI, BARBARA SINA and PHILIPPE A. ROSSIGNOL
Probing behaviour and sporozoite delivery by *Anopheles stephensi* infected with *Plasmodium berghei* 57–61

DANIEL R. SUITER, PHILIP G. KOEHLER and RICHARD S. PATTERSON
Biological response of German cockroaches fed diets containing allopurinol 62–66

R. WALL, C. H. GREEN, N. FRENCH and K. L. MORGAN
Development of an attractive target for the sheep blowfly *Lucilia sericata* 67–74

RICARDO E. GÜRTLER, MARIA C. CECERE, DIANA N. RUBEL and NICOLAS J. SCHWEIGMANN
Determinants of the domiciliary density of *Triatoma infestans*, vector of Chagas disease 75–83

Short Communications
S. G. SUGUNA
Y-chromosome dimorphism in the malaria vector *Anopheles stephensi* from south India 84–86

R. H. STOBBART
Selection of the yellow fever mosquito *Aedes aegypti* for cheap and easy maintenance without bloodmeals 87–89

BOOK REVIEW 90

VOLUME 6, NUMBER 2, APRIL 1992
Published 24 June 1992

DAVID E. GORLA
Population dynamics and control of *Triatoma infestans* 91–97

M. L. WARNES and C. H. GREEN
Responses of female New World screwworm flies, *Cochliomyia hominivorax* to swormlure-4 in the laboratory 98–102

C. H. GREEN and M. L. WARNES
Responses of female New World screwworm flies, *Cochliomyia hominivorax*, to coloured targets in the laboratory 103–109

WILLIAM G. BROGDON, RAYMOND F. BEACH, ANN M. BARBER and CELIA CORDON-ROSALES
A generalized approach to detection of organophosphate resistance in mosquitoes 110–114

INDIRA OMAH-MAHARAJ
Studies on vectors of *Trypanosoma cruzi* in Trinidad, West Indies 115–120

R. L. KERLIN and S. HUGHES
Enzymes in saliva from four parasitic arthropods 121–126

PAUL N. NDEGWA, LUCY W. IRUNGU and SHAMSHUDEEN K. MOLOO
Effect of puparia incubation temperature: increased infection rates of *Trypanosoma congolense* in *Glossina morsitans centralis*, *G. fuscipes* and *G. brevipalpis* 127–130

GARRY W. LEVOT
Chemical control of *Ornithonyssus sylviarum* on caged layer hens 131–134

P. CARNEVALE, G. LE GOFF, J.-C. TOTO and V. ROBERT
Anopheles nili as the main vector of human malaria in villages of southern Cameroon 135–138

G. K. FIASORGBOR and R. A. CHEKE
Cytotaxonomic confirmation of two forms of *Simulium sirbanum* in the eastern part of the Onchocerciasis Control Programme in West Africa 139–142

DAVE D. CHADEE, ELISHA S. TIKASINGH and RAJPAUL GANESH
Seasonality, biting cycle and parity of the yellow fever vector mosquito *Haemagogus janthinomys* in Trinidad 143–148

DAVE D. CHADEE and ELISHA S. TIKASINGH
Distribution and seasonality of *Culex (Melanoconion) caudelli*, a vector of arboviruses in Trinidad 149–153

RICHARD C. RUSSELL and MERILYN J. GEARY
The susceptibility of the mosquitoes *Aedes notoscriptus* and *Culex annulirostris* to infection with dog heartworm *Dirofilaria immitis* and their vector efficiency 154–158

D. D. COLWELL and M. KAVALIERS
Evidence for activation of endogenous opioid systems in mice following short exposure to stable flies 159–164

ANNE S. LANDBO and PER T. FLÖNG
Borrelia burgdorferi infection in *Ixodes ricinus* from habitats in Denmark 165–167

Short Communications

J. ISICHE, J. E. HILLERTON and F. NOWELL
Colonization of the mouse cadaver by flies in southern England 168–170

R. KILLICK-KENDRICK, M. K. SIRDAR and M. KILLICK-KENDRICK
Lack of outer caudal setae as a constant feature of *Phlebotomus tobbi* larvae 171–172

DIA-ELDIN A. ELNAIEM, I. MORTON, R. BRAZIL and RICHARD D. WARD
Field and laboratory evidence for multiple bloodfeeding by *Lutzomyia longipalpis* (Diptera: Psychodidae) 173–174

M. L. WARNES and I. MAUDLIN
An analysis of supernumerary or B-chromosomes of wild and laboratory strains of *Glossina morsitans morsitans* 175–176

R. WALL, N. P. FRENCH and K. L. MORGAN
Blowfly species composition in sheep myiasis in Britain 177–178

BRYAN TURNER and TANYA HOWARD
Metabolic heat generation in dipteran larval aggregations: a consideration for forensic entomology 179–181

BOOK REVIEW 182

VOLUME 6, NUMBER 3, JULY 1992
Published 24 September 1992

R. MAHARAJ, C. C. APPLETON and R. M. MILLER
Snail predation by larvae of *Sepedon scapularis* Adams (Diptera: Sciomyzidae), a potential biocontrol agent of snail intermediate hosts of schistosomiasis in South Africa 183–187

JANE MEMMOTT
Patterns of sandfly distribution in tropical forest: a causal hypothesis 188–194

R. J. QUINNELL, C. DYE and J. J. SHAW
Host preferences of the phlebotomine sandfly *Lutzomyia longipalpis* in Amazonian Brazil 195–200

A. M. FAUSTO, M. MAROLI and M. MAZZINI
Ootaxonomy and eggshell ultrastructure of *Phlebotomus* sandflies 201–208

S. L. O'NEILL and H. E. H. PATERSON
Crossing type variability associated with cystoplasmic incompatibility in Australian populations of the mosquito *Culex quinquefasciatus* Say 209–216

HASSAN A. MOHAMED, GEORGE A. INGRAM and DAVID H. MOLYNEUX
Carbohydrate-binding specificities of anti-erythrocyte lectins (haemagglutinins) in *Anopheles gambiae* gut extracts and haemolymph 217–224

S. K. MOLOO, R. O. OLUBAYO, J. M. KABATA and I. O. OKUMU
A comparison of African buffalo, N'Dama and Boran cattle as reservoirs of *Trypanosoma congolense* for different *Glossina* species 225–230

SARAH E. RANDOLPH, BRIAN G. WILLIAMS, DAVID J. ROGERS and HILARY CONNOR
Modelling the effect of feeding-related mortality on the feeding strategy of tsetse (Diptera: Glossinidae) 231–240

K. DONG and J. G. SCOTT
Synergism of chlorpyrifos against the German cockroach, *Blattella germanica* 241–243

J. E. SHORT and J. P. EDWARDS
Effects of hydroprene on development and reproduction in the Oriental cockroach *Blatta orientalis* 244–250

L. J. FIELDEN, Y. RECHAV and N. R. BRYSON
Acquired immunity to larvae of *Amblyomma marmoreum* and *A.hebraeum* by tortoises, guinea-pigs and guinea-fowl 251–254

JOHN W. MCGARRY, ABUBAKER M. GUSBI, ANNE BAKER, MARTIN J. R. HALL and KALEFA EL MEGADEMI
Phoretic and parasitic mites infesting the New World screwworm fly, *Cochliomyia hominivorax*, following sterile insect releases in Libya 255–260

LINDA D. JONES, ELIZABETH HODGSON, TREVOR WILLIAMS, STEVE HIGGS and PATRICIA A. NUTTALL
Saliva activated transmission (SAT) of Thogoto virus: relationship with vector potential of different haematophagous arthropods 261–265

ELISHA S. TIKASINGH
Effects of *Toxorhynchites moctezuma* larval predation on *Aedes aegypti* populations: experimental evaluation 266–271

ELISHA S. TIKASINGH and ANN EUSTACE
Suppression of *Aedes aegypti* by predatory *Toxorhynchites moctezuma* in an island habitat 272–280

T. TOMA and I. MIYAGI
Laboratory evaluation of *Toxorhynchites splendens* (Diptera: Culicidae) for predation of *Aedes albopictus* mosquito larvae 281–289

ICHIRO MIYAGI, TAKAKO TOMA and MOTOYOSHI MOGI
Biological control of container-breeding mosquitoes, *Aedes albopictus* and *Culex quinquefasciatus*, in a Japanese island by release of *Toxorhynchites splendens* adults 290–300

Short Communications

C. JOHN LANE
Toxorhynchites auranticauda sp.n., a new Indonesian mosquito and potential biocontrol agent 301–305

J. BOORMAN and P. S. MELLOR
Culicoides vectors of bluetongue and African horse sickness viruses in Mauritius 306

T. G. TARE, N. E. VAD and D. M. RENAPURKAR
Circadian variation in venom yield by the scorpion *Heterometrus indus* (De Geer) 307–308

BOOK REVIEW; ANNOUNCEMENT 309–310

VOLUME 6, NUMBER 4, OCTOBER 1992
Published 27 November 1992

ISABELLE TARDIEUX, OLIVIER POUPEL, FRANÇOIS RODHAIN and LAURENT LAPCHIN
Oral susceptibility of *Aedes albopictus* to dengue type 2 virus: a study of infection kinetics, using the polymerase chain reaction for viral detection 311–317

D. R. RAO, R. REUBEN, M. S. VENUGOPAL, B. A. NAGASAMPAGI and H. SCHMUTTERER
Evaluation of neem, *Azadirachta indica*, with and without water management, for the control of culicine mosquito larvae in rice-fields 318–324

YASMIN RUBIO-PALIS and C. F. CURTIS
Biting and resting behaviour of anophelines in western Venezuela and implications for control of malaria transmission 325–334

C. A. GREEN, RAMPA RATTANARITHIKUL and ATI CHAROENSUB
Population genetic confirmation of species status of the malaria vectors *Anopheles willmori* and *An.pseudowillmori* in Thailand and chromosome phylogeny of the Maculatus group of mosquitoes 335–341

J. HEMINGWAY, G. J. SMALL, A. MONRO, B. V. SAWYER and H. KASAP
Insecticide resistance gene frequencies in *Anopheles sacharovi* populations of the Çukurova plain, Adana Province, Turkey 342–348

M. L. WARNES
Activation of three species of tsetse (*Glossina* spp.) in response to host derived stimuli 349–354

ANDREW J. KARTER, IVAR FOLSTAD and JOHN R. ANDERSON
Abiotic factors influencing embryonic development, egg hatching, and larval orientation in the reindeer warble fly, *Hypoderma tarandi* 355–362

OLAF KAHL, CLAUDIA JANETZKI, JEREMY S. GRAY, JÜRGEN STEIN and ROLF J. BAUCH
Tick infection rates with *Borrelia*: *Ixodes ricinus* versus *Haemaphysalis concinna* and *Dermacentor reticulatus* in two locations in eastern Germany 363–366

W. A. SAMARAWICKREMA, FOLA SONE, L. S. SELF, R. F. CUMMINGS and G. S. PAULSON
Distribution of breeding and control of the filariasis vector *Aedes samoanus* in leaf axils of *Pandanus* in Samoa 367–370

W. A. SAMARAWICKREMA, A. D. PARKINSON, N. KERE and O. GALO
Seasonal abundance and biting behaviour of *Anopheles punctulatus* and *An.koliensis* in Malaita Province, Solomon Islands, and a trial of permethrin impregnated bednets against malaria transmission 371–378

R. J. POST and P. FLOOK
DNA probes for the identification of members of the *Simulium damnosum* complex (Diptera: Simuliidae) 379–384

PHILIP M. NGUMBI, PHILLIP G. LAWYER, RICHARD N. JOHNSON, GABRIEL KIILU and CHARLES ASIAGO
Identification of phlebotomine sandfly bloodmeals from Baringo district, Kenya, by direct enzyme-linked immunosorbent assay (ELISA) 385–388

WANG DUN-QING and YU ZI-ZHONG
Chigger mites of the genus *Leptotrombidium*: key to species and their distribution in China 389–395

Short Communications

DAVID LE SUEUR, BRIAN L. SHARP and CHRIS C. APPLETON
Dark-scaled areas on adult *Anopheles* mosquitoes are selectively affected by temperature-related size variation 396–398

S. K. MOLOO
A comparison of colony performance of *Glossina pallidipes* originating from two allopatric populations in Kenya 399–400

SOFTWARE REVIEW; BOOK NOTICE, BOOK REVIEW 362, 395, 401
